Notice 5

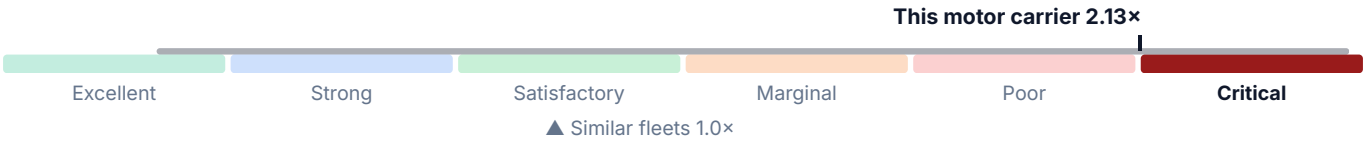

The FRED Score is an analytical opinion, not an FMCSA safety rating. Data sourced from FMCSA. Read the full notice on page 5.

Summary

Expected crash rate is probably higher than similar fleets (about a 70% chance), but the record is too thin to say by how much.

Similar fleets: intrastate fleets of 2–5 trucks with the same kind of operation, years in business and amount of road activity. Compared using its own crash record and roadside inspections.

Per truck, fleets like this one are expected to crash about 0.4× as often as the median active fleet of 2–5 trucks.

Leaning Critical. Its estimate (2.13× similar fleets) is in the Critical range, but the record isn't strong enough to be 60% sure it is above the Critical line (2.11×), so the grade stays Marginal.

0.1 vs 0.0
expected crashes in the next 12 months, vs 0.0 for similar fleets
Most likely none

<1%
chance of a fatal crash in the next 12 months
About 2.1× similar fleets.

2.13×
crash rate relative to similar fleets
80% likely 0.41×–4.45×

What's driving the grade

Crash history
better worse
Leans worse, not yet proven. 1 crash on the FMCSA record in 24 months (about 0.5 a year); similar fleets have under 0.1 a year.

Roadside inspections
better worse
No roadside record. No inspections in the scoring window, so roadside results leave its estimate at typical.

Notes on this record

Advisory grade — outside the ranked book
Fleets under 10 power units are graded against their size cohort for reference, but sit outside the 10+ power-unit underwriting book the FRED rank covers.

Mileage unreliable
MCS-150 annual mileage appears too low for fleet size given observed activity. The per-100k-mile benchmarks are left out; the FRED grade does not use mileage.

Intrastate operation
Runs within Colorado only. Intrastate fleets in Colorado are inspected about 1 a year for every 11 trucks; interstate fleets, about 1 a year for every 2 trucks. So this record rests mainly on crash reports, which states file for intrastate trucks too, and few inspections are ordinary here.

FMCSA status today

live check · Nov 8, 2026, 3:08 AM CT

Operating authority	Operating authority active
Insurance / authorization	Authorized to operate
Out of service	Not out of service
Safety rating	No FMCSA safety rating

Worth a closer look

From the FMCSA record. The grade already counts the safety items; insurance filings and links to other motor carriers are not in it.

Nothing on the FMCSA record stands out.

Strengths

- 1 crash in 24 months. No injuries, no fatalities.

Data flags

- **Unreliable reported mileage** — The motor carrier's self-reported annual mileage (MCS-150) looks implausible, so exposure- and mileage-based figures may be distorted.
- **Estimated mileage** — No usable mileage was reported, so exposure was estimated from similar motor carriers. Mileage-based metrics here are approximate.
- **Limited inspection history** — Fewer than 5 roadside inspections on record, so there isn't enough data to score this motor carrier with high confidence — the score leans more on peers.

Roadside and crash record

last 24 months · grade scored on Oct 1, 2023 → Oct 31, 2026

1	0	—	—	0
Crashes	**Inspections**	**Vehicle out-of-service**	**Driver out-of-service**	**Violations**
0 fatalities · 0 injuries · 0 tow-aways	roadside inspections	no inspections Intrastate avg 30.6%	no inspections Intrastate avg 8.5%	0 out-of-service

Intrastate fleets of 2–5 trucks in Colorado are rarely inspected: under 1 inspection would be typical in 24 months for a fleet this size; 78% of them had none.

Compared with 2,889 peer fleets

YEARLY RATE	PER POWER UNIT	PEERS
Crashes	0.250	0.021
Inspections	0.00	0.71
Violations	0.00	1.02
Critical violations	0.00	0.13

Yearly rates from the last 24 months. Peers: intrastate fleets, Small (advisory) power units, minimal-risk cargo. Inspections per power unit look like an outlier against peers; read the per-unit rates with care. Reported mileage is unreliable, so per-mile rates aren't shown.

Violations 0 in 24 months

No violations on the FMCSA record in the last 24 months.

Crashes 24 months

1 crash

DATE	STATE	SEVERITY	CONDITIONS
Mar 3, 2026	Colorado	Property damage only	Wet road, daylight, two-way trafficway divided unprotected median.

Insurance filed with FMCSA

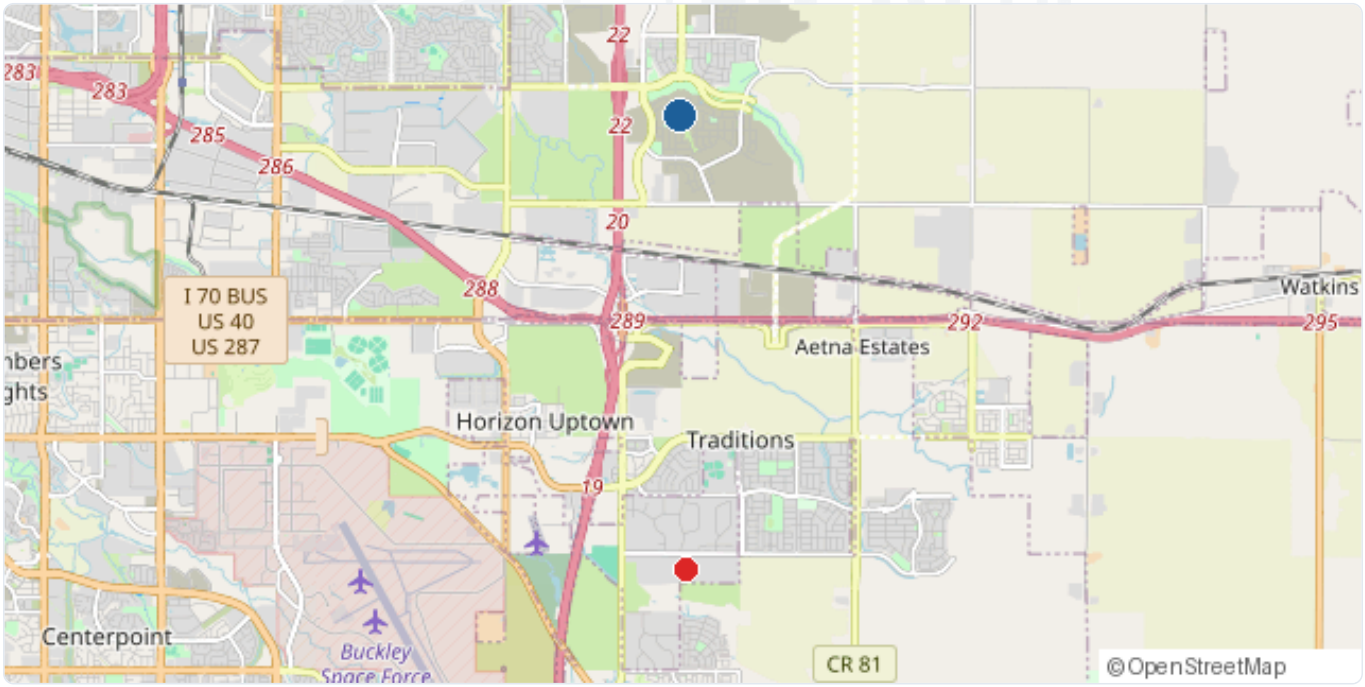

Today · live FMCSA check

Liability (BIPD)	not reported
Cargo	not reported
Bond	not reported

FMCSA filings only, not a policy audit. Not part of the FRED grade.

No MC, FF or MX docket on FMCSA's registration for this motor carrier, so there are no insurance filings to show. FMCSA collects filings only from registered for-hire authorities; other motor carriers keep proof of insurance (MCS-90) at their place of business.
