Notice 6

The FRED Score is an analytical opinion, not an FMCSA safety rating. Data sourced from FMCSA. Read the full notice on page 6.

Summary

Not enough record to grade yet.

1 inspection and no crashes on the FMCSA record in 24 months fit anything from an Excellent fleet to a Poor one.

Similar fleets: intrastate fleets of 2–5 trucks with the same kind of operation, years in business and amount of road activity. Compared using its own crash record and roadside inspections.

0.1 vs 0.1

expected crashes in the next 12 months, vs 0.1 for similar fleets

Most likely none

A record this thin can't pin that down: about a 1-in-6 chance it runs at Poor-level crash rates.

Ask

Loss runs for the last 3 years, and confirm the fleet is operating at its filed size (5 power units).

What the record shows

Crash history

better worse

Too little record to tell. 0 crashes on the FMCSA record in 24 months; similar fleets have about 0.1 a year.

Roadside inspections

better worse

Mixed. Violations 1.26× the rate expected for its inspections, but out-of-service orders 0.78×. Together they barely move its crash estimate.

Notes on this record

Advisory grade — outside the ranked book

Fleets under 10 power units are graded against their size cohort for reference, but sit outside the 10+ power-unit underwriting book the FRED rank covers.

Mileage unreliable

MCS-150 annual mileage appears too low for fleet size given observed activity. The per-100k-mile benchmarks are left out; the FRED grade does not use mileage.

Intrastate operation

Runs within Ohio only. Intrastate fleets in Ohio are inspected about 1 a year for every 13 trucks; interstate fleets, about 1 a year for every 2 trucks. So this record rests mainly on crash reports, which states file for intrastate trucks too, and few inspections are ordinary here.

FMCSA status today

live check · Nov 8, 2026, 3:26 AM CT

Operating authority	Operating authority active
Insurance / authorization	Authorized to operate
Out of service	Not out of service
Safety rating	No FMCSA safety rating

Worth a closer look

From the FMCSA record. The estimate already counts the safety items; insurance filings and links to other motor carriers are context only.

Nothing on the FMCSA record stands out.

Data flags

- **No active operating authority** — The motor carrier's interstate for-hire authority is revoked or inactive, so it isn't currently cleared to haul interstate for hire.
- **Unreliable reported mileage** — The motor carrier's self-reported annual mileage (MCS-150) looks implausible, so exposure- and mileage-based figures may be distorted.
- **Unusual inspection rate** — Inspections per truck fall outside the normal range (1st–99th percentile), which can point to a mis-reported fleet size or data issues.
- **Limited inspection history** — Fewer than 5 roadside inspections on record, so there isn't enough data to score this motor carrier with high confidence — the score leans more on peers.

Roadside and crash record

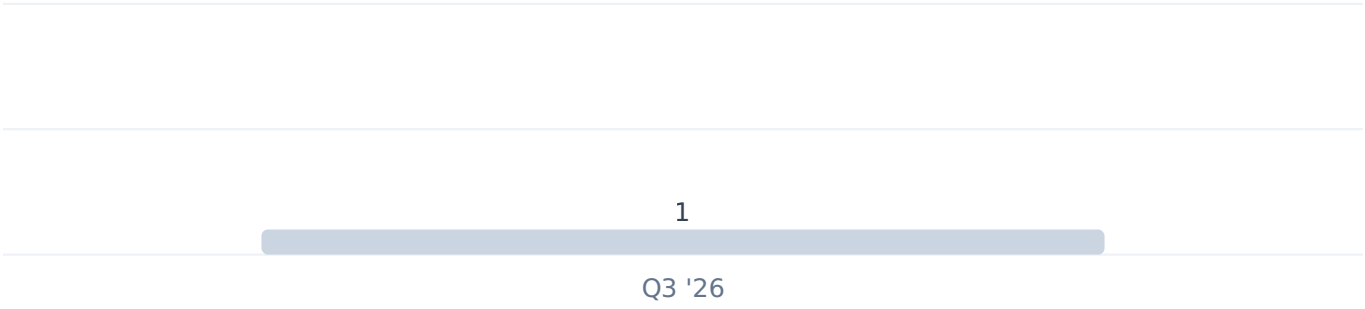

FMCSA record Aug 2026 – Aug 2026 · grade scored on Oct 1, 2023 → Oct 31, 2026

0	1	0.0%	0.0%	1
Crashes	**Inspections**	**Vehicle out-of-service**	**Driver out-of-service**	**Violations**
0 fatalities · 0 injuries · 0 tow-aways	0% clean (no violations)	0 of 1 Intrastate avg 30.6%	0 of 1 Intrastate avg 8.5%	0 out-of-service

Intrastate fleets of 2–5 trucks in Ohio are rarely inspected: under 1 inspection would be typical in 24 months for a fleet this size; 79% of them had none.

Inspections per quarter

inspections with an out-of-service order

Compared with 12,623 peer fleets

YEARLY RATE	PER POWER UNIT	PEERS
Crashes	0.000	0.020
Inspections	0.10	0.64
Violations	0.10	0.87
Critical violations	0.00	0.12

Yearly rates from the last 24 months. Peers: intrastate fleets, Small (advisory) power units, medium-risk cargo. Inspections per power unit look like an outlier against peers; read the per-unit rates with care. Reported mileage is unreliable, so per-mile rates aren't shown.

Violations 1 in 24 months

CATEGORY	TOTAL	OUT OF SERVICE	MOST COMMON
Vehicle maintenance No alert	1	0	Lights 1
Unsafe driving No alert	0	—	—
Hours of service No alert	0	—	—
Driver fitness No alert	0	—	—
Drugs & alcohol No alert	0	—	—

Out-of-service share of each category. “No alert” = under FMCSA's BASIC intervention threshold.

Violations by quarter

Crashes 24 months

No reportable crashes on the FMCSA record in the last 24 months.

Cargo risk 52.6 · medium

Metal: Sheets/Coils/Rolls | General Freight | Logs/Poles/Beams/Lumber | Building Materials | Other: ASPHALT | Grain/Feed/Hay | Utility | Construction

High-risk cargo: General Freight

"General Freight" is a catch-all; the actual cargo mix and its risk may differ.

Estimated from the commodity types reported to FMCSA, not from loss history or the true cargo mix.

NOTICE

Data sourced from FMCSA. The FRED Score is an analytical opinion and is not an FMCSA safety rating. Unless a motor carrier has received an Unsatisfactory safety rating under 49 CFR Part 385 or has otherwise been ordered to discontinue operations by FMCSA, it is authorized to operate.
