Summary

Not enough record to grade yet.

4 inspections and no crashes on the FMCSA record in 24 months fit anything from an Excellent fleet to a Poor one.

Similar fleets: interstate fleets of 2–5 trucks with the same kind of operation, years in business and amount of road activity. Compared using its own crash record and roadside inspections.

Per truck, fleets like this one are expected to crash about 1.7× as often as the median active fleet of 2–5 trucks.

0.1 vs 0.1

expected crashes in the next 12 months, vs 0.1 for similar fleets

Most likely none

A record this thin can't pin that down: about a 1-in-6 chance it runs at Poor-level crash rates.

Ask

Loss runs for the last 3 years, and confirm the fleet is operating at its filed size (1 power unit).

What the record shows

Crash history

better worse

Too little record to tell. 0 crashes on the FMCSA record in 24 months; similar fleets have about 0.1 a year.

Roadside inspections

better worse

Mixed. Unsafe-driving and hours-of-service violations 1.61× and violations 1.54× the rate expected for its inspections, but out-of-service orders 0.76×. Together they move its crash estimate +7%: roadside results weigh far less than crash history.

Notes on this record

> **Advisory grade — outside the ranked book**
> Fleets under 10 power units are graded against their size cohort for reference, but sit outside the 10+ power-unit underwriting book the FRED rank covers.

Worth a closer look

From the FMCSA record. The estimate already counts the safety items; insurance filings and links to other motor carriers are context only.

> **Lapse in liability filings**
> 308 days without a liability filing on FMCSA's record (Sep 8, 2024 – Jul 13, 2025) while the authority required one. A filing received later can be back-dated and close a lapse. Not in the grade.
> Ask: what covered the fleet during the gap.

Data flags

- **Dangerous driving: 1**
- **Limited inspection history** — Fewer than 5 roadside inspections on record, so there isn't enough data to score this motor carrier with high confidence — the score leans more on peers.

Roadside and crash record
