Summary

Too little record to tell how this motor carrier's crash rate compares with similar fleets.

Similar fleets: intrastate fleets of about 1 trucks with the same kind of operation, years in business and amount of road activity. Compared using its own crash record and roadside inspections.

Notes on this record

Stale MCS-150 filing
This motor carrier has not updated its MCS-150 in over 3 years. Reported mileage and fleet size may be outdated.

Intrastate operation
Runs within Nevada only. Intrastate fleets in Nevada are inspected about 1 a year for every 11 trucks; interstate fleets, about 1 a year for every 2 trucks. So this record rests mainly on crash reports, which states file for intrastate trucks too, and few inspections are ordinary here.

Worth a closer look

From the FMCSA record. The grade already counts the safety items; insurance filings and links to other motor carriers are not in it.

Nothing on the FMCSA record stands out.

Data flags

- **Limited inspection history** — Fewer than 5 roadside inspections on record, so there isn't enough data to score this motor carrier with high confidence — the score leans more on peers.

Roadside and crash record

last 24 months · grade scored on Aug 1, 2025 → Jul 31, 2026

0	0	—	—	0

Intrastate fleets of 1 truck in Nevada are rarely inspected: under 1 inspection would be typical in 24 months for a fleet this size; 89% of them had none.

Compared with 9,895 peer fleets

Critical violations	0.00	0.11	0.00	0.08

Yearly rates from the last 24 months. Peers: intrastate fleets, Owner-Operator power units, medium-risk cargo. Inspections per power unit look like an outlier against peers; read the per-unit rates with care.
