Notes on this record

Mileage unreliable

MCS-150 annual mileage appears too low for fleet size given observed activity. The per-100k-mile benchmarks are left out; the FRED grade does not use mileage.

Worth a closer look

From the FMCSA record.

Driver qualification

1 out-of-service violation against drivers: 1 no valid CDL (Oct 2024).

Ask: driver qualification files and hiring standards.

Strengths

- 1 crash in 24 months. No injuries, no fatalities.

Data flags

- **Dangerous driving: 2**
- **Unreliable reported mileage** — The motor carrier's self-reported annual mileage (MCS-150) looks implausible, so exposure- and mileage-based figures may be distorted.
- **Estimated mileage** — No usable mileage was reported, so exposure was estimated from similar motor carriers. Mileage-based metrics here are approximate.
- **Limited inspection history** — Fewer than 5 roadside inspections on record, so there isn't enough data to score this motor carrier with high confidence — the score leans more on peers.
