Summary

Not enough record to grade yet.

No inspections and no crashes on the FMCSA record in 24 months fit anything from an Excellent fleet to a Poor one.

Similar fleets: interstate fleets of 2–5 trucks with the same kind of operation, years in business and amount of road activity. Compared using its own crash record and roadside inspections.

0.0 vs 0.0

expected crashes in the next 12 months, vs 0.0 for similar fleets

Most likely none

A record this thin can't pin that down: about a 1-in-5 chance it runs at Poor-level crash rates.

Ask

Loss runs for the last 3 years, and confirm the fleet is operating at its filed size (2 power units).

What the record shows

Crash history

better worse

Too little record to tell. 0 crashes on the FMCSA record in 24 months; similar fleets have under 0.1 a year.

Roadside inspections

better worse

No roadside record. No inspections in the scoring window, so roadside results leave its estimate at typical.

Notes on this record

Fleets under 10 power units are graded against their size cohort for reference, but sit outside the 10+ power-unit underwriting book the FRED rank covers.

FMCSA suspended it for insurance: no liability filing meeting the FMCSA minimum on file. FMCSA's new registration system launched May 14, 2026 and has recorded some insurance suspensions and requirement changes in error; confirm with the insurer or motor carrier before acting.

Worth a closer look

From the FMCSA record. The estimate already counts the safety items; insurance filings and links to other motor carriers are context only.

Operating authority suspended for insurance

FMCSA suspended its operating authority on Oct 20, 2026: no liability filing meeting the FMCSA minimum on file (minimum $300,000). Not reinstated on FMCSA's record through Nov 2, 2026. FMCSA's new registration system launched May 14, 2026 and has recorded some insurance suspensions and requirement changes in error; confirm with the insurer or motor carrier before acting. Not in the grade.

Ask: whether FMCSA's record is correct, what covered the fleet since Oct 20, 2026, and why the policy ended.

Data flags

- **Limited inspection history** — Fewer than 5 roadside inspections on record, so there isn't enough data to score this motor carrier with high confidence — the score leans more on peers.
